## SLIDING DOORS

CAMBRIDGE  
SERIES

Refined, quiet bypass. Four rollers ensure effortlessly smooth door operation for any bath or shower.

POPULAR  
COLORS

# Custom showers

Step into a world of clarity and comfort. At Glass Innovation Corp., we specialize in custom glass shower enclosures that are not just functional, but true statements of design. Crafted with precision and utilizing premium CRL hardware, our showers offer durability, beauty, and a seamless bathing experience. Explore our range, from sleek frameless designs to sophisticated sliding systems, all meticulously tailored to fit any bathroom geometry.

Our commitment to excellence means every enclosure is custom-measured, precision-cut, and expertly installed. We partner with industry leaders to ensure that every hinge, handle, and piece of hardware meets the highest standards of durability and aesthetic appeal. Experience the difference that premium materials and skilled craftsmanship make in your daily routine.

# YOUR DESIGN

With Glass Innovation, you are in complete control of the design. Whether you choose to create your custom shower from scratch with our team or already have a vision in mind, we make it happen. Send us your plans, and we will translate them with 100% precision and accuracy. Alternatively, allow us to guide you through every step of the design process to craft a shower system that perfectly fits your style, space, and needs.

## SHOWER SYSTEMS

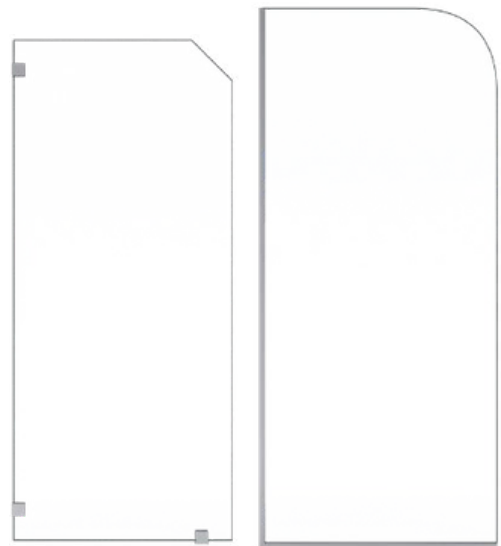

Secure every installation with premium CRL systems. We utilize heavy-duty channels, clamps, and precision hardware for maximum structural integrity and a watertight seal, ensuring durability and a flawless, lasting finish.

### CLAMPS & CHANNELS

## CURVED EDGES

We specialize in complex geometry. Our custom capabilities include precision-cut neo-angle enclosures and specialty chamfered glass edges for frameless doors and fixed panels, ensuring every corner meets your unique design specifications flawlessly.

# QUALITY HARDWARE

We exclusively utilize premium CRL hardware for every installation. Our selection of hinges, handles, and supporting elements ensures superior durability, structural integrity, and long-term performance. Choose from a refined palette of finishes to perfectly match your interior specifications.

**CRL**<sup>®</sup>

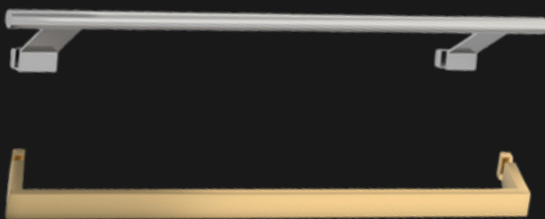

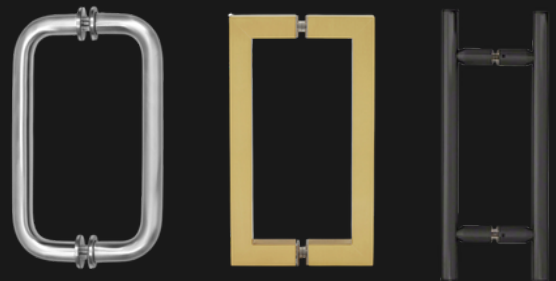

## HINGES

Engineered for reliability. Heavy-duty, self-centering hinges guarantee smooth, precise door action and secure glass alignment for decades of trouble-free use.

## HANDLES

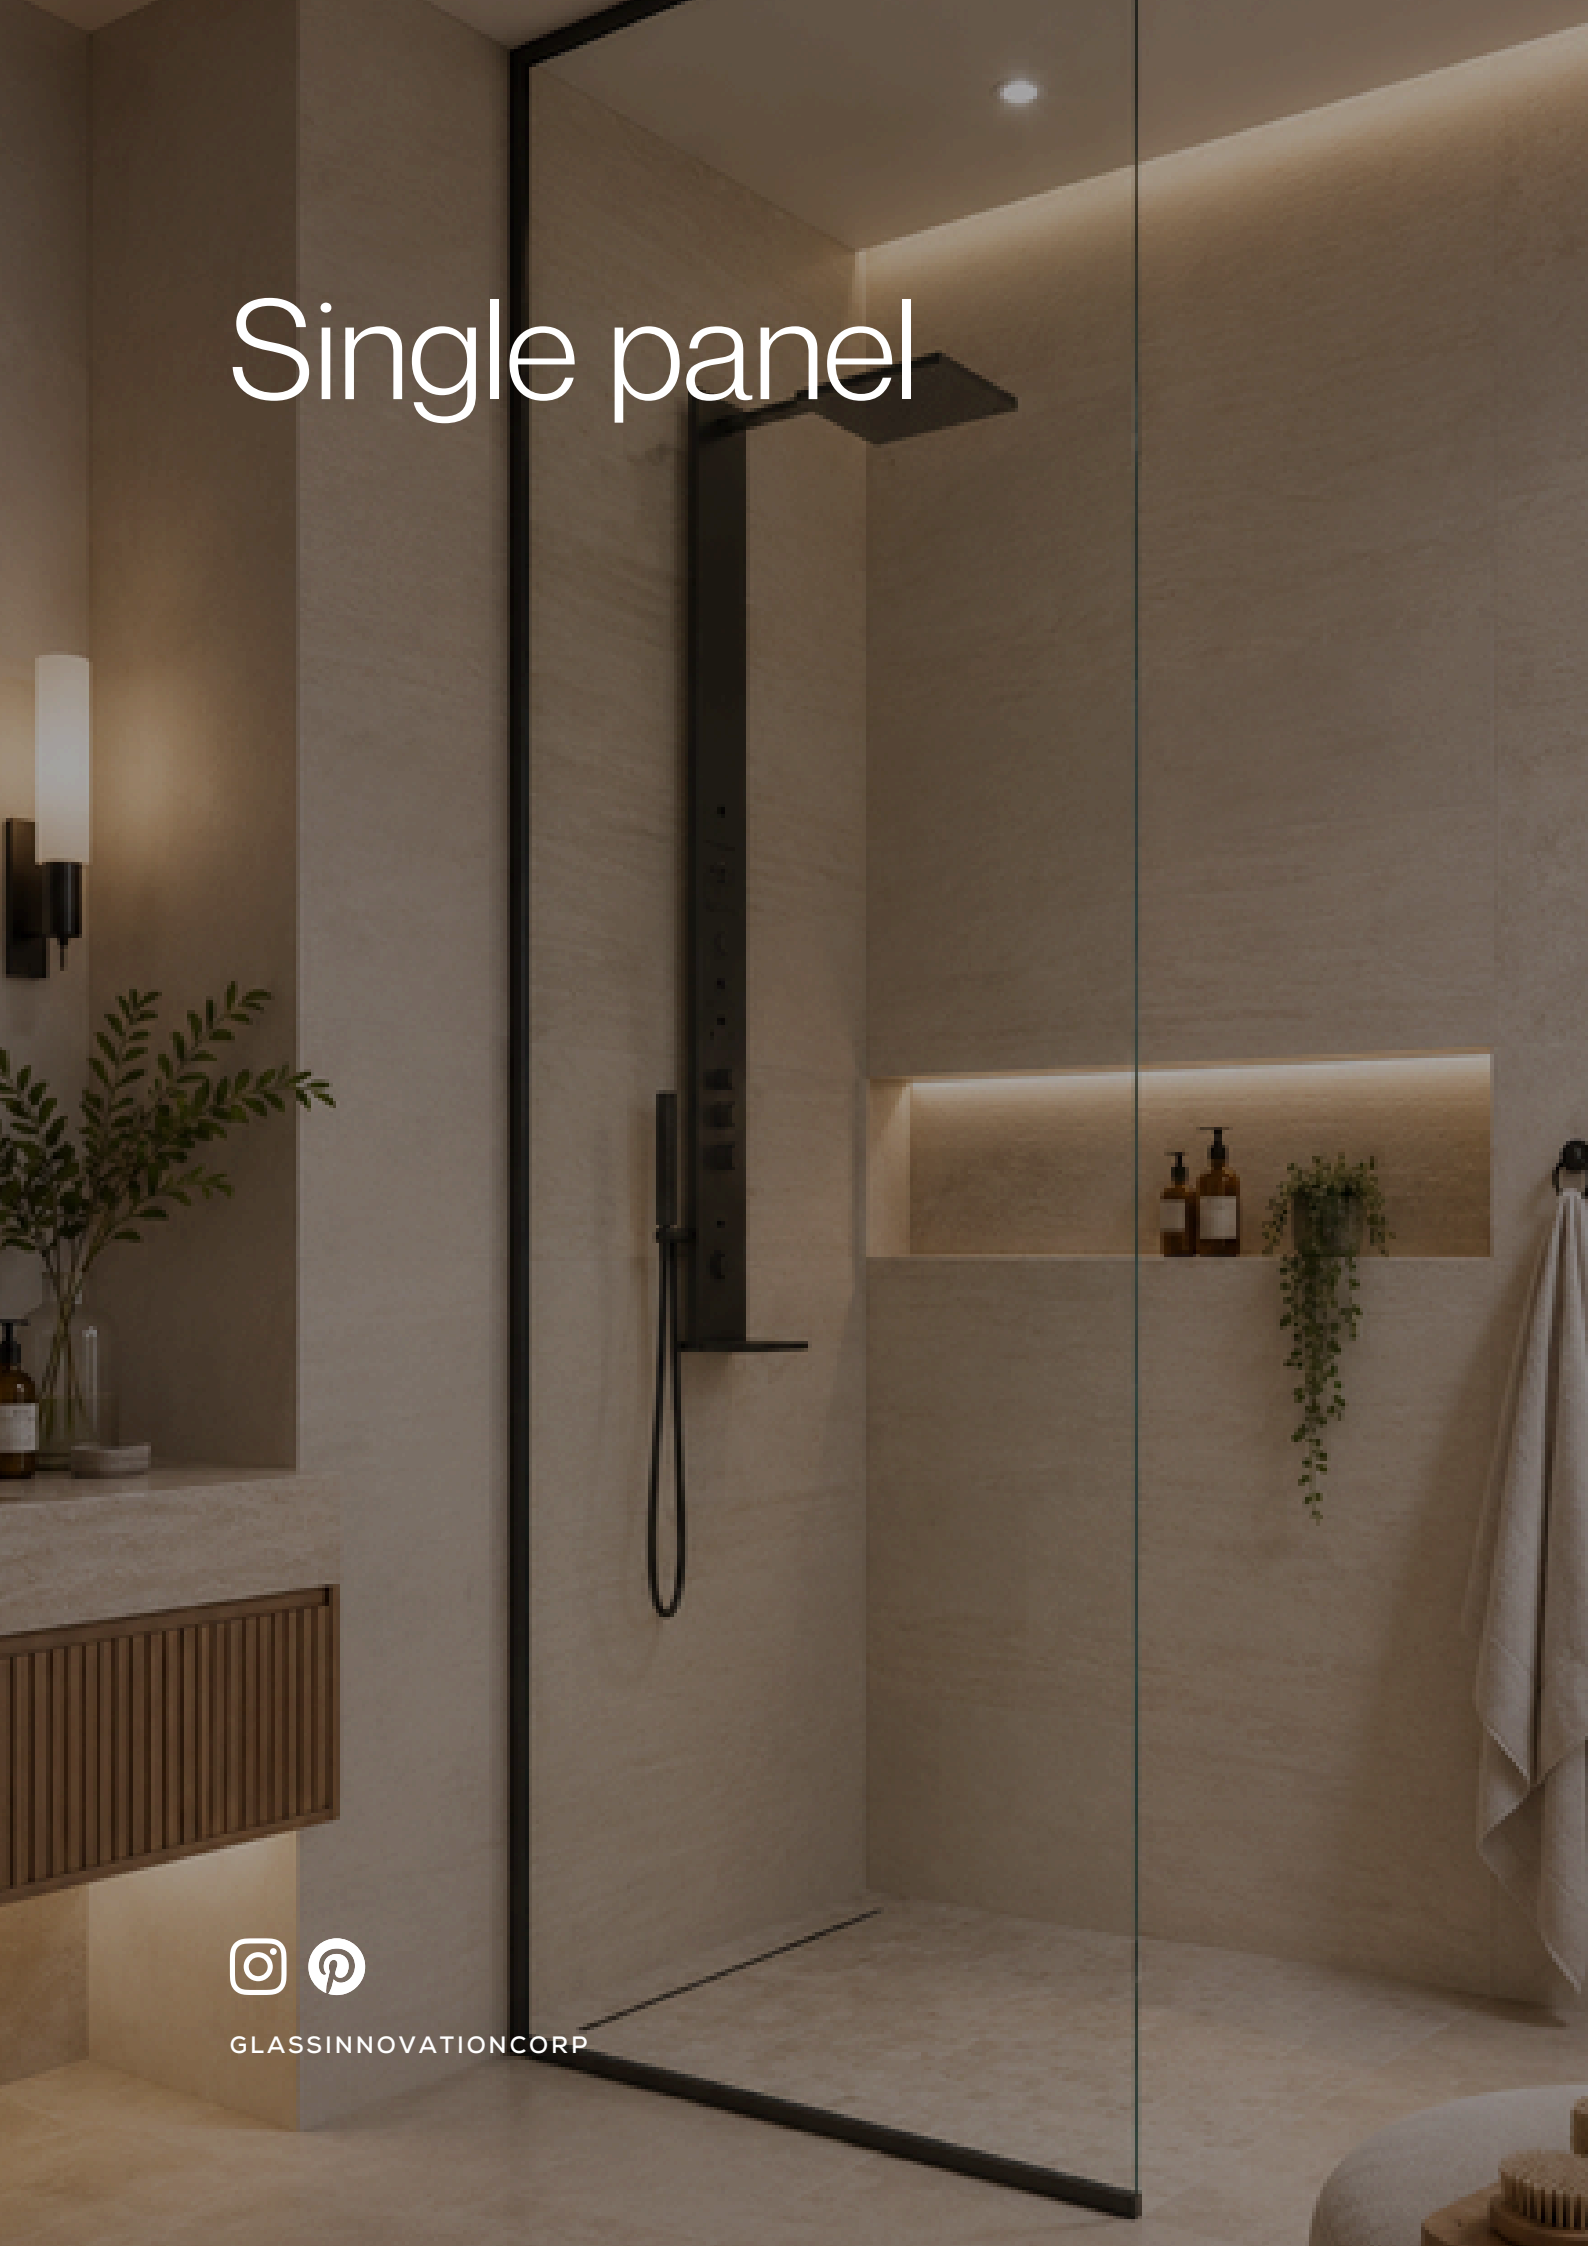

Ergonomic design meets refined style. Our collection of handles and knobs provides comfort, security, and the perfect finishing touch in a range of premium finishes.

## TOWEL BARS

Integrated elegance. Seamlessly mounted towel bars provide essential functionality and structural stability without compromising the clean, frameless aesthetic.

GLASSINNOVATIONCORP

# Custom mirrors

Elevate any space with a custom mirror from Glass Innovation Corp. More than just reflective surfaces, our mirrors are powerful design elements, enhancing light and expanding perceived space in homes and businesses alike. We craft bespoke mirrors to perfectly match your vision. From grand, floor-to-ceiling pieces to intricate shapes or elegant vanity mirrors, our precision capabilities are limitless. We offer various mirror types, including clear, tinted

and antique finishes, plus sophisticated beveled edges. Our skilled team ensures precise measurement, custom cutting, and flawless installation for stunning results every time. Invest in a custom mirror and watch your space reflect unparalleled beauty and personalized elegance. Unlock your home's or business's full potential with a piece that truly reflects your unique style.

# Home office

GLASSINNOVATIONCORP

## PARTITIONS

FALLBROOK  
INTERIOR

Slim, floating door frame creates a minimalist aesthetic. Maximizes transparency and daylighting.

INTERIOR  
SOLUTIONS

# Interior custom glass solutions

Redefine the functionality of luxury residences with our custom glass enclosures and partitions. Glass Innovation Corp. specializes in creating designated, sophisticated spaces that maintain light flow and a modern, open aesthetic. Beyond simple walls, we engineer full glass boxes or internal offices (e.g., home offices, focus studios) that provide acoustic privacy without visual clutter. We also provide sleek, frameless interior glass doors to complete the

modern space. Our bespoke applications include residential cigar/wine lounges, featuring climate-controlled, ventilated glass enclosures for dedicated collections, as well as home gyms with full-height glass walls for modern visibility and sound isolation. Utilizing frameless hardware and precision installation, we craft sleek, tailored divisions that enhance light, and privacy.

# Glass cellars

GLASSINNOVATIONCORP

## CELLARS

FALLBROOK  
XL NY GRID

Unique grid system for Fallbrook XL.  
Highly versatile, no drilling needed.  
Horizontal or vertical.

INTERIOR  
SOLUTIONS

# Custom glass cellars

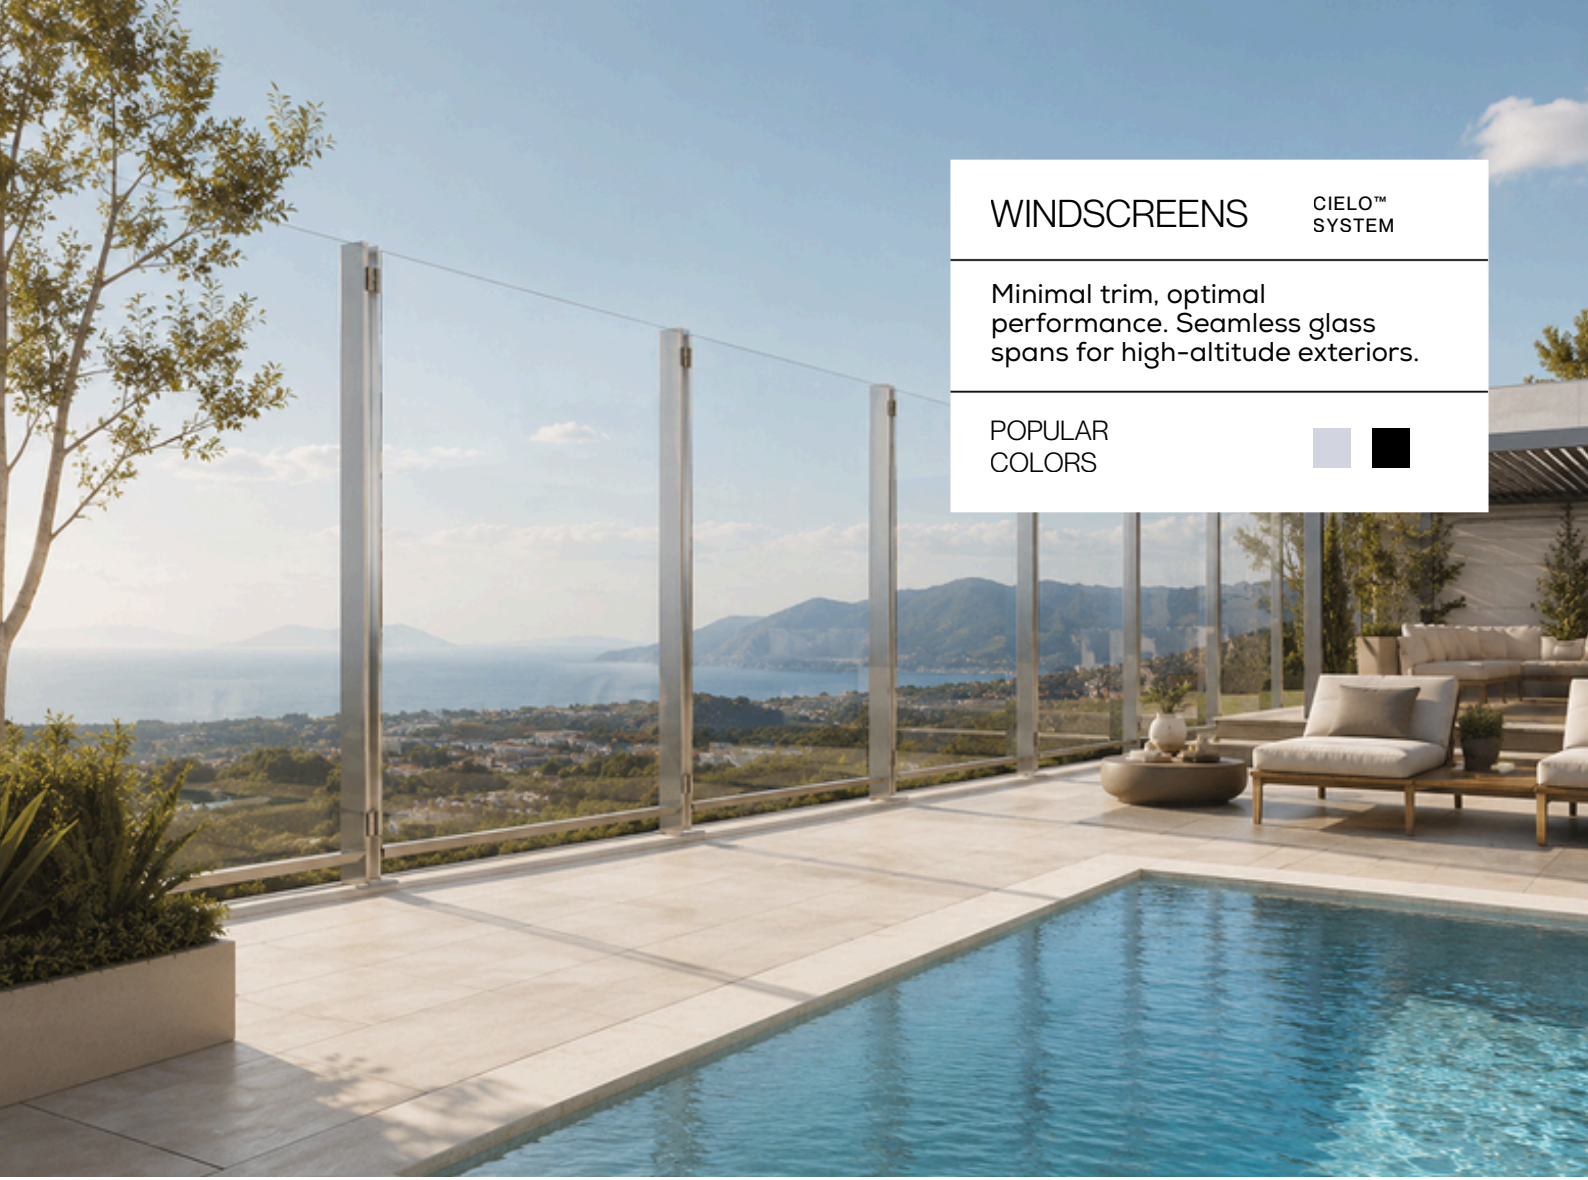

Showcase your collection as a statement of high-end luxury with a custom glass cellar from Glass Innovation Corp. Beyond conventional storage, our bespoke enclosures are meticulously designed to present your most valued possessions, whether a rare wine collection, fine numismatics, premium cigars, or high-end jewelry. We specialize in precision-engineered, frameless glass walls and doors, utilizing heavy-duty structural hardware and

specialized glass tailored to meet unique preservation needs, such as maintaining strict climate control for wine and humidors. Our designs prioritize maximum visual clarity with minimal architectural clutter, effectively transforming a storage area into a curated, climate-secured display piece.

# Glass railings & windscreens

GLASSINNOVATIONCORP

## WINDSCREENS

CIELO™  
SYSTEM

Minimal trim, optimal performance. Seamless glass spans for high-altitude exteriors.

POPULAR  
COLORS

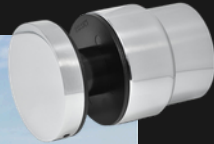

# Outdoor & indoor glass solutions

Elevate your indoor and outdoor spaces with the seamless beauty and robust functionality of Glass Innovation Corp.'s custom glass railings and windcreens. CRL frameless systems offer unobstructed views and modern aesthetics, perfect for balconies, decks, staircases, pools, and patios. Designed for safety and style, our railings provide secure barriers without visual clutter, enhancing any residential or commercial setting.

Utilizing premium, durable glass and high-quality CRL hardware, we ensure every installation is meticulously crafted for longevity and stunning appeal. Discover clarity, sophistication, and enhanced safety for your terraces, interior mezzanines, pool surrounds, or restaurant patios. Reflect your commitment to contemporary design and open living.

# GLASS RAILINGS

Enhance any space with the robust functionality and seamless beauty of our custom glass railings. Utilizing CRL frameless systems, we provide secure barriers for balconies, decks, and mezzanines without visual clutter. Our precision installation ensures maximum safety, durability, and stunning, unobstructed views in any residential or commercial setting.

## NEW ADJUSTABLE STANDOFF RAILING

Durable 316 stainless steel. Allows up to 1/2" glass projection adjustment for perfect alignment on uneven substrates, ensuring clean, all-glass aesthetics.

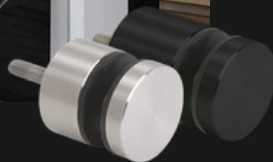

## HRS HANDRAIL SYSTEMS

Sleek, easy-to-install glass handrail systems. All necessary brackets, tubing, and connectors ensure safety compliance and modern, customized aesthetics.

## STANDOFF RAILING FITTINGS

Comprehensive systems for sleek, modern railings. Standoffs, caps, and mounting hardware seamlessly integrate, ensuring aesthetics, safety, and durability.

# WINDSCREEN SYSTEMS

Elevate outdoor spaces with our high-performance glass windscreens. Designed to provide superior protection against wind and weather without sacrificing views. Our frameless and post-supported systems offer robust structural integrity and modern aesthetics, ideal for high-altitude terraces, patios, and rooftop lounges.

**CRL**

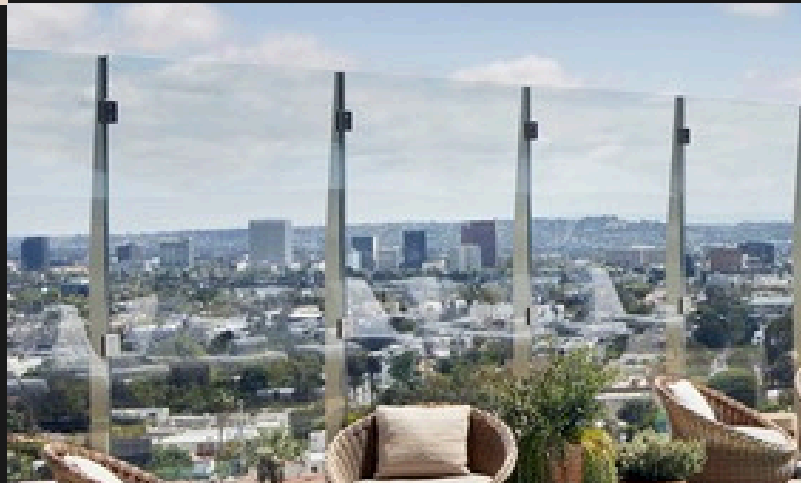

## AWS 3" ROUND POST

Sleek 3" round posts offer optimal wind protection with classic, refined aesthetics and robust structural integrity for any exterior.

## METROPOLIS™

Ultra-slim 3/4" trim creates expansive glass spans for seamless transparency. Meets IBC code with durable 316 stainless steel.

## CIELO™

Optimal structural performance with minimal 3-1/4" trim. Unobstructed, five-foot glass spans designed to withstand up to 80 PSF wind loads.

# Commercial inspiration

Embark on a partnership of transformation with Glass Innovation Corp. Discover how commercial environments can be optimized into functional, prestige assets through innovative glass design concepts and specialized solutions.

From maximizing daylight in corporate offices to creating seamless, high-security retail displays, each project in this catalog is a testament to the power of precision and modern architecture.

Let your business reflect unparalleled quality and forward-thinking design as you explore these inspiring commercial applications. Welcome to a world where every dimension is optimized and every structure communicates excellence.

Seamlessly defines space. Ultra-slim 3/4" posts maximize transparency and daylight diffusion.

OFFICE  
SOLUTIONS

## OFFICE DOORS

Klarity™

Minimalist integration. Doors with ultra-slim posts maintain the office space's transparency.

OFFICE  
SOLUTIONS

# Clear view for modern offices

Transform your workspace with architectural glass designed to foster connection, productivity, and contemporary prestige. At Glass Innovation Corp., we believe the modern office should eliminate visual barriers, not reinforce them. Our custom glass systems, from full-height partitions to sleek office doors, maximize the transmission of natural light, significantly reducing the reliance on artificial lighting and creating a more energetic, engaging

environment for employees. The transparency achieved with our frameless installations cultivates a powerful sense of unity and collaborative culture across teams, while still allowing for necessary acoustic separation—vital for focus work, private meetings, and executive areas. We offer solutions tailored to every aesthetic and structural challenge, seamlessly integrating with concrete, drywall, or existing metal framing.
